INTERNSHIPS

Inria, Sierra Team led by Francis Bach *03/2026 – 07/2026*
*AI/ML **Research Internship**, under Pierre Marion's direction*
Research on looped transformers and recursive reasoning models, ended in July 2026.

University of Cambridge Computer Lab *09/2025 – 02/2026*
*AI/ML **Research Internship**, under Pietro Liò's direction*
Research on higher-order attention, led to the following preprint (publication in process). First part of the internship year in between the 2nd and 3rd year of Ecole des Ponts, co-supervised by Vincent Lepetit.

PROJECTS

ESA & Oxford, Research Project *02/2026 – 09/2026*
Part-time research project with Quentin Paletta (from the European Space Agency) and Rui Song (postdoctoral researcher at the University of Oxford) on machine learning for the recovery of essential climate variables from pretrained Earth observation embeddings.

CEA, Research Project *10/2024 – 05/2025*
Long-term Stability of GNN for Molecular Simulation, under Cosmin Marinica's direction
Worked on ways to improve stability of GNN-induced molecular dynamics using score-matching finetuning on Boltzmann distributions, in parallel of Ecole des Ponts 2nd year.

EDUCATION

MVA. Research Master in Mathematics, Vision, Learning *2026 – present*
Master 2 student. Double MS degree with École des Ponts

École Nationale des Ponts et Chaussées *2023 – Present*
Engineering student in the Mathematics and Computer Science Department.
Currently in 3rd year (Master 2 equivalent).

Lycée Louis-Le-Grand *2021 – 2023*
Preparatory Classes student (HX1 – MP⋆4). *Paris, France*

VOLUNTEERING

Volunteer at Emmaüs Paris *05/2024 – 07/2024*
Helped organize the daily activities of two Emmaüs Paris solidarity shops.

CERTIFICATIONS

TOEIC – 980/990 C1 English equivalent. *09/2023*
